

10 Questions To Ask About Your Operational Integrity

1. Do you lack visibility into your infrastructure?
2. Is your documentation lacking or even current?
3. Can you answer to audit requirements with the appropriate information?
4. Do you regulatory or compliance requirements that you are struggling to meet?
5. Do you operate proactively or reactively?
6. Does your team spend a disproportionate time reacting to infrastructure issues?
7. Do you have a defined change management process?
8. Have you experienced an extended outage as the result of having support contract problems?
9. Do you find yourself solving for today and sacrificing tomorrow?
10. Do you want the confidence to tell your C-level executives that your infrastructure is prepared to add value to the organization?
