

10 Questions To Ask About Optimizing Your Network Infrastructure

1. Is your documentation lacking or even current?
2. Do you have regulatory or compliance requirements that you are struggling to meet?
3. Are you struggling to keep up with the explosion of data generated by your business?
4. Is your IT department a cost center or strategic advantage?
5. Do you operate proactively or reactively?
6. Do you struggle to meet corporate SLAs?
7. Do you often receive help desk tickets regarding poor performance?
8. Are you struggling to get the most value from your infrastructure tools?
9. Is your network ready to add additional services like voice, video or wireless?
10. Do you find yourself solving for today and sacrificing tomorrow?
