

10 Questions To Ask Yourself Before Your Next Technology Purchase

1. Is business growth moving faster than your infrastructure can support?
2. Are you struggling to keep up with the explosion of data generated by your business?
3. Are you realizing your investment in your infrastructure?
4. Are you facing the possibility of having to upgrade your bandwidth to meet traffic demands?
5. Do you need assistance in building business cases for a needed infrastructure upgrade?
6. Have you received equipment that was not correct that caused delays in projects?
7. How do you get more from less?
8. Does interacting with your current provider feel more “transactional” versus consultative?
9. Are you getting the “value-add” from your VAR?
10. When was the last time your partner/VAR said no?
